

*Colin Pill* is an expert in the field of arts and crafts metalwork and creates hand crafted copper work in the 'Arts and Crafts' style from his studio in Bristol. The designs are heavily influenced by Newlyn copper which was produced in Cornwall during the last century, drawing inspiration from the sea.

The copper work is entirely hand made using traditional methods of construction.

*Colin Pill* is the joint author of the new book 'Newlyn Copper Arts and Crafts Copper work in Newlyn'.

A large range of items can be made to order including:

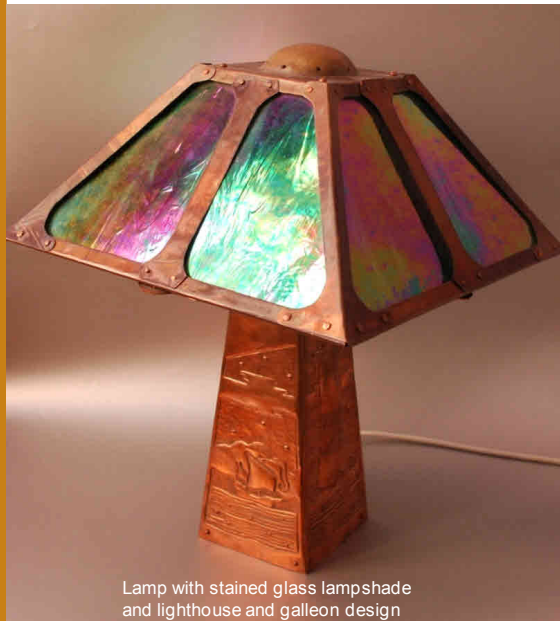

- Photograph Frames & Mirrors*
- Jewellery Boxes and Caskets*
- Lamps and Light Fittings*
- Clocks*
- Plaques*
- House Name Plates*
- Doorplates*

Special commissions are welcomed
